WAGMIx SK Hynix Daily Max (2x) | Ticker: SKHY2Lw

Underlying Asset: HKEX 7709.HK (CSOP SK Hynix Daily Max (2x) Leveraged Product)

World's first tokenized product with 24/7 trading and T0[1] settlement for primary subscriptions and redemptions

Underlying Asset Investment Theme and Market Data

SK hynix ranked first globally by high-bandwidth memory (HBM) revenue in Q2 2026.[2]

Up to 2x daily 7709.HK seeks to track SK hynix's targeted daily leveraged performance before fees and expenses.	**≈ HK$307.8bn[3]** Peak monthly turnover (Jul 2026)	**≈ HK$14.0bn/day[3]** Average daily turnover in the peak month (Jul 2026)	**Over HK$132bn[4]** 7709.HK assets under management (Jun 2026)

Four Core Selling Points

01 Physical Asset Backing

Actual holdings of 7709.HK units are held in custody by a licensed broker and provide 1:1 backing.

02 Deep Order Books by Top Market Makers

Leading global market makers provide two-way quotes around the clock to support order-book depth. Secondary-market prices are formed through the order book.

03 Zero Funding Fees + Funding Arbitrage

Unlike perpetual contracts, the product has no funding fees. Perpetual-contract hedges may offer funding-rate arbitrage opportunities. Outcomes depend on funding rates, hedging arrangements and costs.

04 No Brokerage Account Required

Investors can trade on supported secondary markets directly from their wallets without opening a brokerage account.

Product mechanics & rationale

[1] Primary subscriptions and redemptions are processed through approved participating dealers (PDs) for eligible professional investors. T0 settlement is available both during and outside of Hong Kong market hours. Settlement is deferred when reliable valuation or settlement is unavailable. Reference prices outside Hong Kong market hours are indicative.
