World's first tokenized product with 24/7 trading and T0[3] settlement for primary subscriptions and redemptions

Investment Theme and Market Data

SK hynix ranked first globally by high-bandwidth memory (HBM) revenue in Q2 2026.[4]

Up to 2x daily	≈ HK$307.8bn[1]	≈ HK$14.0bn/day[1]	Over HK$132bn[2]
7709.HK seeks up to twice the daily performance of SK hynix shares before fees.	Peak monthly turnover (Jul 2026)	Average daily turnover in the peak month (Jul 2026)	7709.HK assets under management (Jun 2026)

Four Core Selling Points

① Physical Asset Backing

Actual holdings of 7709.HK units are held in custody by a licensed broker and provide 1:1 backing.

② Zero Funding Fees

+ Funding-Rate Arbitrage Opportunities

The product charges no funding fees and may be used alongside perpetual-contract strategies to seek funding-rate arbitrage opportunities. Outcomes depend on funding rates, hedging arrangements and related costs.

③ Deep Order Books by Top Market Makers

Leading global market makers provide two-way quotes around the clock to support order-book depth. Secondary-market prices are formed through the order book.

④ No Brokerage Account Required

Investors can trade on supported secondary markets directly from their wallets without opening a brokerage account.

Operating Process

Primary subscriptions and redemptions link the minting and burning of SKHY2Lw to settlement of the underlying assets.

Product Features

Trading Pairs and Hours: SKHY2Lw/USDT and SKHY2Lw/USDC. Secondary trading is available 24/7. Primary subscriptions and redemptions are eligible for T0[3] settlement during Hong Kong market hours under delivery versus payment (DvP).

Minimum Subscription and Redemption Size: The minimum is 100,000 Notes per primary subscription or redemption (this minimum does not apply to secondary-market trades), unless another minimum or multiple is specified or agreed under the definitive transaction documents.

Fees: The product charges no funding fee. Approved PDs pay 0.10% on each subscription and 0.10% on each redemption.

Licensed Custody & Operations: Fosun International Securities holds the underlying 7709.HK units in custody. WAGMIx handles tokenization and 1:1 reconciliation. Finloop Finance Limited provides technology support and acts as the blockchain paying agent.

Custody and Network Fees: Annual custody is 0.25% of the value of 7709.HK units held in the operational reserve account. Network fees apply separately. The issuer may adjust fees and approve a lower custody fee on a case-by-case basis.

Holder Rights: Holders receive contractual economic benefits linked to 7709.HK. They may transfer their tokens around the clock, subject to applicable transfer restrictions, and request redemption through an approved PD.
