Four Core Selling Points

① Physical Backing

Actual 7709.HK holdings in licensed broker custody provide 1:1 backing. Operational assets may include 7709.HK units, cash or cash equivalents. The Notes are unsecured.

② Zero Funding Fees + Funding-Rate Arbitrage Opportunities

The product charges no funding fees and may be used alongside perpetual-contract strategies to seek funding-rate arbitrage opportunities. Outcomes depend on funding rates, hedging arrangements and related costs.

③ Deep Order Books by Top Market Makers

Top market makers provide round-the-clock quotes. Buy and sell orders determine prices on order-book venues. Liquidity is not guaranteed.

④ No Brokerage Account Required

Access secondary-market trading from a wallet without a brokerage account, subject to investor eligibility and venue rules.

Operating Process

Approved participating dealers (PDs) handle primary orders. The issuer may hold 7709.HK units, cash or cash equivalents for hedging and operations.

① Subscribe
Approved PDs may subscribe in cash, in supported stablecoins or in eligible assets accepted by the issuer.

→ **Accepted consideration**
Funds must clear or accepted assets must be delivered. Issuance and settlement conditions must be met.

→ **② Mint**
Tokens are minted after receipt of the consideration and fulfilment of the issuance conditions.

→ **③ 24/7 Trading**
Wallet users access secondary trading subject to venue rules, eligibility requirements and transfer restrictions.

← **④ Redeem and burn**
Apply through an approved PD. Tokens are burned or cancelled after redemption.

← **Check redemption terms**
Delivery follows the definitive documents. Redemption may be deferred if valuation or settlement is unavailable.

← **T0 settlement[3]**
T0 settlement applies during Hong Kong market hours under delivery versus payment (DvP).

Product Features

Trading hours: Secondary trading is available 24/7. Primary T0 settlement applies during Hong Kong market hours under DvP.[3]

Primary minimum: Generally 100,000 Notes. The definitive documents may specify or allow another minimum or multiple.

Fees charged to PDs: Subscription and redemption fees are 0.10% each on the transaction value. Custody is 0.25% per year on the value of 7709 units in the operational reserve account.

Service providers: Fosun International Securities Limited holds issuer assets in custody. WAGMIx handles tokenization, calculation and registration. Finloop Finance Limited provides technology and paying agency services.

Fee adjustments: Network fees also apply. The issuer may adjust fees and may approve a lower custody fee case by case.

Holder rights: Each token represents one unsecured Note. Holders receive contractual exposure to 7709.HK and do not own the underlying units.

Product mechanics & rationale

[1] Turnover: Bloomberg, through 20 October 2026. The peak is measured across complete calendar months. July 2026 had 22 trading days.

[2] Source: CSOP trading filing, 22 June 2026. NAV per unit was HK$189.0799, with 698,500,000 units outstanding.

[3] Primary orders require an approved PD that meets professional-investor, non-U.S. person and other eligibility requirements. T0 settlement applies under DvP during Hong Kong market hours. Settlement is deferred during closures or if reliable valuation or settlement is unavailable. Eligibility and transfer restrictions apply.
